

### Charging via USB

### **Using The Charging Pad**

To power the Wireless Charging Pad, connect a USB cable to the USB port on the side of the unit. Connect the other end of the cable to the adapter made for your smartphone. Then plug the adapter into a power outlet.

Line up the charging pin on the speaker with the charging jack before placing the iBTW88 on the charging pad. When properly docked, the LED indicator will glow red to confirm the unit is

# **BLUETOOTH PAIRING**

**Manual Pairing** 

'iHome iBTW88' on your dévice's Bluetooth menu to complete pairing.

Select

# PLAYING BLUETOOTH AUDIO

Run Your Favorite Music Apps

**End Call** 

# **USING SPEAKERPHONE**

# **AUX-IN / RESET**

## **AUX-IN Audio**

Connect one end of a 3.5mm audio cable (not included) into the AUX-IN jack on the speaker, and the other end to the headphone iack of your audio device.

- \* Press PLAY on your audio device to start playback.
- \* Control/navigate tracks from your audio device, too.

In the event of interrupted operation, use the extended tip of a paperclip or other thin tool to press in the Reset button (located inside the AUX-IN jack). Press the Power Button to

## WATER-RESISTANT OPERATION

For proper water-resistant operation, make sure the cover on the back of the speaker is completely flush with the unit by pressing along the entire edge of the cover until it is completely and securely in place.

Charging pad is **NOT** water-resistant.

### WIRELESS CHARGING PAD

How to Wirelessly Charge Your Device

Normal Charging - Use a 5V 2A USB AC adapter. Fast Charging - Use a 9V 1.67A USB AC adapter.

Place your smartphone face up on the wireless charging area as shown above. The LED indicator on the charging pad will glow red while your device charges, and will automatically shut off once your device is fully charged.

WARNING: Remove metal protective or magnetic case from phone before charging. When charging phone, do not place magnetic-striped or other metal objects on the charger. Doing so could damage the object or this unit. Qi compatible phones with metallic looking finishes will charge normally.

Note: The wireless charging process generates heat that may cause phones and chargers to get warm to the touch. This is natural for wireless charging devices.

  Never expose the battery to excessive heat such as direct sunlight or fire. Never use the battery pack in an unventilated vehicle where excessive internal temperatures may be encountered.

  Always keep the battery out of the reach of infants and small children.

  Attention should be drawn to the environmental aspects of battery disposal.

- · CAUTION Danger of explosion if battery is incorrectly replaced. Replace only with the same or

# **FCC INFORMATION**

Model: iBTW88 FCC ID: EMOIBTW88

IC: 986B-IBTW88

This device complies with Part 15 of the FCC Rules, operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

- Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

# CAN ICES-3 (B)/NMB-3(B), CAN RSS216 / CNR-216

his device contains licence-exempt transmitter(s)/feceiver(s) that comply with Innovation, Science and Economic evelopment Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: ) This device may not cause interference. 2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) L'appareil ne doit pas produire de brouillage; (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

e dispositif a été évalué à satisfaire l'exigence générale de l'exposition aux rf. 'appareil peut être utilisé dans des conditions d'exposition portatif sans restriction.
